

Miguel **Fernandez** | Full stack developer

Miguelfernandez1x1@gmail.com | Venezuela | [Linkedin](#) | +584248351460

Systems Engineer with over 4 years of experience designing and scaling high-impact web and mobile applications. Expert in the JavaScript ecosystem (React, Vue, TypeScript) and mobile development with Ionic-Capacitor/Flutter. Stand out for adopting Generative AI (Claude 3.5, GitHub Copilot) to accelerate the Software Development Life Cycle (SDLC) and reduce delivery times by up to 30%. Focused on Clean Architecture, SOLID, and UI/UX design, with a bug prevention approach.

WORK EXPERIENCE

Development Consultant

Norkut

Venezuela - On-site

Julio 2025 - Present

- **Full-stack Modernization:** Led the restructuring of Angular and .NET modules under Clean Code and SOLID principles, improving corporate system scalability and reducing load time by 10%.
- **AI Automation:** Developed an intelligent report generation system integrating the Claude API via Python, reducing manual analysis time.
- **UI/UX Optimization & QA:** Redesigned the user experience using Figma and applied rigorous validations during development, achieving intuitive navigation and delivering modules with 0 critical defects in formal testing phases.

Frontend developer

OMNINEXO - WAIKERI HITECH

Venezuela - Hybrid

February 2024 - April 2025

- **Web & Mobile Development:** Design and deployment of custom applications with Vue.js and hybrid frameworks (Ionic/Capacitor) to optimize business processes.
- **Process Digitalization:** Implemented a real-time data capture system for inventories, eliminating manual records and improving accuracy by 20%.
- **Technical Productivity & Quality:** Used Claude and GitHub Copilot for code consultation and refactoring, accelerating the delivery cycle by 30%. Executed manual test cases and flow testing to identify and resolve errors before QA handoff.

EDUCATION

Systems Engineering

Universidad de margarita (Unimar)

Isla de Margarita

2017-2022

LANGUAGES

Inglés B1 (In progress)

Spanish: Native

SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React, Vue.js, Angular, HTML/CSS, TailwindCSS
- **Mobile:** Flutter, React Native, Ionic/Capacitor
- **Backend:** Node.js, Express, NestJS, .NET, MongoDB, SQL Server
- **Tools & AI:** GitHub, Jira, Figma, AWS, Azure, Claude 3.5 API, GitHub Copilot, CI/CD
